

TSEHAI Book News

Changing Rural Ethiopia: Community Transformations documents transformation in twenty rural communities in Ethiopia, that have changed almost beyond recognition, in complex ways with different implications for various people – men and women, adults and youth, rich and poor.

This book sheds new light on the varied consequences of Ethiopia's turbulent history for her rural communities and those who reside there. The unparalleled longitudinal studies presented here were carried out by many researchers over more than thirty years. *Changing Rural Ethiopia* is to be recommended to anyone taking an interest in the unfolding of social history in Ethiopia, Africa and elsewhere.

Gunilla Bjerén, Professor of
Gender Studies, Stockholm University

This book provides a wealth of information on the remarkable transformation of the Ethiopian countryside. It is the result of a very ambitious project and the commitment of a select group of scholars for about two decades.

Svein Ege, Associate Professor in
African Studies, NTNU Norway

This book documents transformation in twenty rural communities in Ethiopia, that have changed almost beyond recognition, in complex ways with different implications for various people – men and women, adults and youth, rich and poor. The communities have become less rural through urbanisation and more outward-looking, including through labour migration. The local economies have become more diversified, offering opportunities for entrepreneurial individuals and greater participation of women. At the same time inequalities have risen and young people’s aspirations have grown with more educational opportunities. However, youth face increased challenges in improving their livelihoods and transitioning to adulthood. The expansion in health care is important, particularly for young women, mothers and babies, though girls still face a range of risks in growing up, and poverty and remoteness affect the wellbeing of mothers and infants.

This book will appeal to policymakers, practitioners, donors and academics seeking to understand Ethiopia today through the experiences of the majority of its people who still live beyond the major conurbations; and the ways their lives have evolved over the last twenty years.
